

## ACE VENTURA ] Ronald's first US show explores the second skin

*Pop and Second Skin, both oil on canvas, Ronald Ventura at Tyler Rollins*

*"Tyler Rollins Fine Art is pleased to present the first solo exhibition for Ronald Ventura in the United States. One of the most acclaimed contemporary artists from the Philippines, Ventura has garnered significant international attention in recent years. He now ranks among the leading younger artists in Southeast Asia.*

*"Entitled Metaphysics of Skin, the exhibition features a new series of paintings – some large in scale – along with sculptures and works on paper. It marks Ventura's first showing since his major solo exhibition at the NUS Museum in Singapore, Mapping the Corporeal, in 2008. While the Singapore show explored the inner mechanics of the body, Ventura's new works take inspiration from the human skin itself." **Read more.***
